In T. Smiddy, chairman of the union committee of the firemen, declared the union was intact excepting desertion of one man. He said the union was not responsible for the acts of any man, union or nonunion, who violated the laws during the strike. His statement came in reply to a question relative to arrest of several firemen on different charges.

Full authority to settle the strike demands of the firemen and at a strike for several weeks was given in the committee which visited the firemen, and they could be prevented a walkout," declared Smiddy.

Several of the firemen who participated in the walkout, already have accepted other positions and will not return to the department in any event.
